ABOUT

RED LIGHT SKYSCRAPER

INSTRUMENTAL POST-ROCK FROM SIENA, ITALY

Formed in **2015** among the Tuscan hills, **Red Light Skyscraper** is an *instrumental post-rock band* blending **cinematic tension, explosive dynamics,** and **emotional melodies.**

The project stems from the fusion of diverse musical backgrounds, evolving into a *wordless language* that *conveys emotional depth, inner journeys, and urban atmospheres.*

With **one album and over ten singles** released, the band has performed at acclaimed events such as the **CONCRETION Festival** (alongside **God Is an Astronaut** and **Pg.Lost**) and opened the **debut tour** of **Calibro 35 plays Morricone.**

Now, **Red Light Skyscraper** is working on a **new concept album** born from an *artistic collaboration with a Syrian photographer from Damascus — a dialogue between sound and imagery exploring* **themes of memory, displacement, and resilience.**

Combining **sonic intensity** with **immersive visuals**, **Red Light Skyscraper** turns each stage into a *living, cinematic experience.*

LINE-UP:

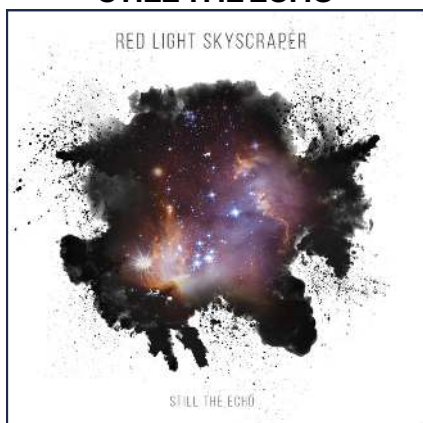

- **Carlo Parillo** – guitar, keys, vocals
- **Jacopo Palumbo** – guitar
- **Mattia Cella** – bass
- **Matteo Vispo** – drums

PRESS & SPECIAL PROJECTS

la Repubblica

"A post-rock driven by emotions with a strong narrative impact, which acts like an inner cosmic trip through our soul and thoughts."

PROG

"A moody multi-dimensional single... creating an atmosphere of warm ambience and musical dynamism... evoking the work of one of the giants of modern art".

rockit

"Still The Echo is pleasant to listen to, in which you can feel a thick sound, obtained with effort, work and heart."

A TRIBUTE TO MOGWAI | 2022

In 2022, Red Light Skyscraper were invited to take part in *Take Me Somewhere Nice*, a **worldwide tribute album** dedicated to **MOGWAI** — *one of the most influential post-rock bands of all time.*

They opened the compilation with a reinterpretation of *HELICON I*, offering a **dense, emotional version** that **pays homage** while maintaining their **distinctive sound**.

All proceeds from the project support **The Wildlife Trusts**, a *UK charity committed to restoring biodiversity by 2030.*

Available on **Spotify** and **Bandcamp**.
